

Seminar

NORDIC ENERGY WAYS – WHAT'S IN IT FOR US?

Monday, 2 June 2014

Swedish Embassy (Felleshus)
Rauchstr. 1, 10787 Berlin

The Nordic countries already have a long history of cross-border cooperation in the electricity market sector and source also a large part of its power supply from renewable energy. How to continue this path and achieve further decarbonisation?

In their report [Nordic Energy Ways in Europe](#) the Nordic Action Group on Climate and Energy (NAG), a business platform established as part of the Energy and Climate Program of Global Utmaning, an independent Stockholm based think tank, takes a closer look at the European/Nordic energy potential. Which ways forward are the most sustainable, most efficient ones? Is there a potential for closer Nordic and Northern European integration?

And what is in it for Germany as a result of increased cooperation? Specifically, what are the benefits, what are the risks and what are possibilities to facilitate a stronger integration of the power systems?

In the context of the "Nordic Energy Ways in Europe" report, [Agora Energiewende](#) and [Global Utmaning](#) – working together as partners in an upcoming project assessing the effects of increased integration of the Nordic and German electricity systems – invite German stakeholders and others to a seminar on 2 June 2014 to present the report and to discuss its relevance for the German Energiewende. The event is kindly hosted by the Swedish Embassy.

REGISTRATION / CONTACT

The event is free of charge and you may register online at www.agora-energiewende.org/service/events.

PROGRAMME

Moderator: Antina Sander, Deputy Executive Director, Renewables Grid Initiative (RGI)	
13:30	Registration
14:00	Welcome Address Staffan Carlsson, Sweden's Ambassador to Germany
14:10	Global Utmaning and the NAG Group Kristina Persson, Chairperson, Global Utmaning
14:15	Nordic Cross Border Cooperation in the Electricity Sector Arne Mogren, Programme Director, European Climate Foundation
14:30	Introducing the NAG Report "Nordic Energy Ways in Europe" Anders Olsson, Deputy CEO, E.ON Norden
14:50	A German View on the NAG Report Patrick Graichen, Executive Director, Agora Energiewende
15:00	Questions and Answers
15:20	Coffee Break
15:35	Panel Discussion Markus Steigenberger, Deputy Executive Director, Agora Energiewende Nannan Lundin, Director, Energy & Climate Programme, Global Utmaning Anders Olsson, Deputy CEO, E.ON Norden André Poschmann, Head of Unit, German Federal Ministry for Economic Affairs Carsten Rolle, Head of Department, Climate and Energy Policy, Bundesverband der Deutschen Industrie e.V. (BDI)
16:55	Wrap Up Kristina Persson, Chairperson, Global Utmaning
17:00	Reception
Language: English
