Member States driving the green energy transition

EUSEW 2021 Extended programme

Session on Best practice investments, policy reforms and transparent decision processes

Paula Abreu Marques
Deputy Director
DG ENER European Commission
The Fit for 55 Package – Overview

The package aims to make the EU ‘fit for 55’ and deliver the transformational change needed in a
• fair,
• cost-efficient and
• competitive way.

It cements the EU’s global leadership by action and by example in the fight against climate change.
The Recovery and Resilience Facility is composed of loans and grants available to support reforms and investments undertaken by Member States.

- 37% of the funds must be spent on climate investments and reforms.
Available EU Funding

• More than 30% of EU funds under NextGenerationEU and the Multiannual Financial Framework will be spent on fighting climate change.

• 37% (around €250 billion) of funds from the Recovery and Resilience Facility must be spent on climate-related investments and reforms.

• Around €177 billion has already been allocated to climate-related investment in the 22 Recovery and Resilience Plans approved by the Commission.

• Investments are being made in energy efficiency and clean energy through the power up and renovate flagships.
Technical Support Instrument 2022 call

- Aim of the call is to provide Member States with technical support for the design or implementation of reform projects in 2022.

- Member States can submit requests for technical support in a broad range of areas, such as green and digital transition, and also request technical support for the implementation of their Recovery and Resilience Plans (RRPs).

- Priority to projects on supporting the implementation Renovation Wave.
