# About the CASE programme

On behalf of

of the Federal Republic of Germany

**Objective:** The narrative of the direction of the energy sector in Southeast Asia has substantially shifted towards an **evidence-based energy transition**, aiming to increase political ambition to comply with the Paris Agreement.

## Outputs

### Research and Evidence

The evidence base for an energy transition in SEA is improved

### Transparency and Mapping

Synergies between different energy transition activities in the region are maximized due to increased transparency and cooperation

### Dialogue Non-energy sector

The dialogue on energy transition within government bodies is improved

### Technical Assistance (energy)

The capacities of key energy sector stakeholders to undertake an energy transition are strengthened

### Promoting public discourse

A public discourse on energy transition is established

# Methodology and approach

On behalf of

of the Federal Republic of Germany

**CASE will propose evidence-based solutions to the challenges met by decision makers in the design and implementation of the energy transition (ET) and build societal support around those solutions.**

**Building the evidence**

**Packaging the evidence**

**Dissemination & Dialogue**
